Spare Space and/or possible extra activities. If you are doing extra work, and/or are using the below space because you didn't have space in any of the previous work spaces, make sure you say what the work is related to (which section).

Below are a few examples of some extra work/activities which could be done by your students, either just for fun, and/or to extend those who have finished early etc. Of course the children may actually give you some of their own ideas of what they would like to do as an extra.

A few possibilities are...

- Make up their own currency,
- Make up their own cheque,
- Make up their own scenarios either for fun and/or for other students to do,
- Their own financial literacy/denomination game or activity,
- Music/songs/artists etc which have the word money in it (like Abba's Money, Money, Money),
- Do an art activity where different currencies are used,
- Find out how many different currencies there are,
- Find out which currencies are from which countries,
- ...and the list goes on.

Have Fun ☺
