**My Mini Fact File:** Using the information from the story, write your own mini fact file/presentation about 'healthy streams'. You can include other information that you already know about as well. You can do this a number of different ways (ask your teacher if you are unsure). You may want to do it like a mini booklet, where you cut the mini booklet out in the shape of something related to the theme (such as in the shapes of some water life/animals). The book may even have some pop-up images or hanging pictures like a mobile.
